Woodlake Area Trail Repairs:
Repairs & paving have been delayed between miles 3-4, as the Army Corp of Engineers is scheduled to do levee widening along this stretch in the next 2-3 years. This segment of trail will likely be relocated.

Harrington Area Trail Repairs:
Approx. 0.5 miles overlay from Harrington Dr., downstream & overlay of parking lot and River Walk Way spurs
** Construction currently underway
Dec. 2009 - March 2010*

Guy West Bridge North Overlay:
Approx. 0.4 miles of overlay done in 2008 as part of the Arden Force Main Drainage project.

Mile 16.5 Fence Removal:
Remove chain link fence & dead trees
** Construction dependent upon funding
* Spring 2010*

El Manto Restroom:
Install new, prefabricated restroom at picnic area
** Const. expected Summer 2010*

Bannister Trail Repairs:
Overlay and/or replace existing trail, including removal of roots under pavement
** Construction expected Spring & Summer 2010*

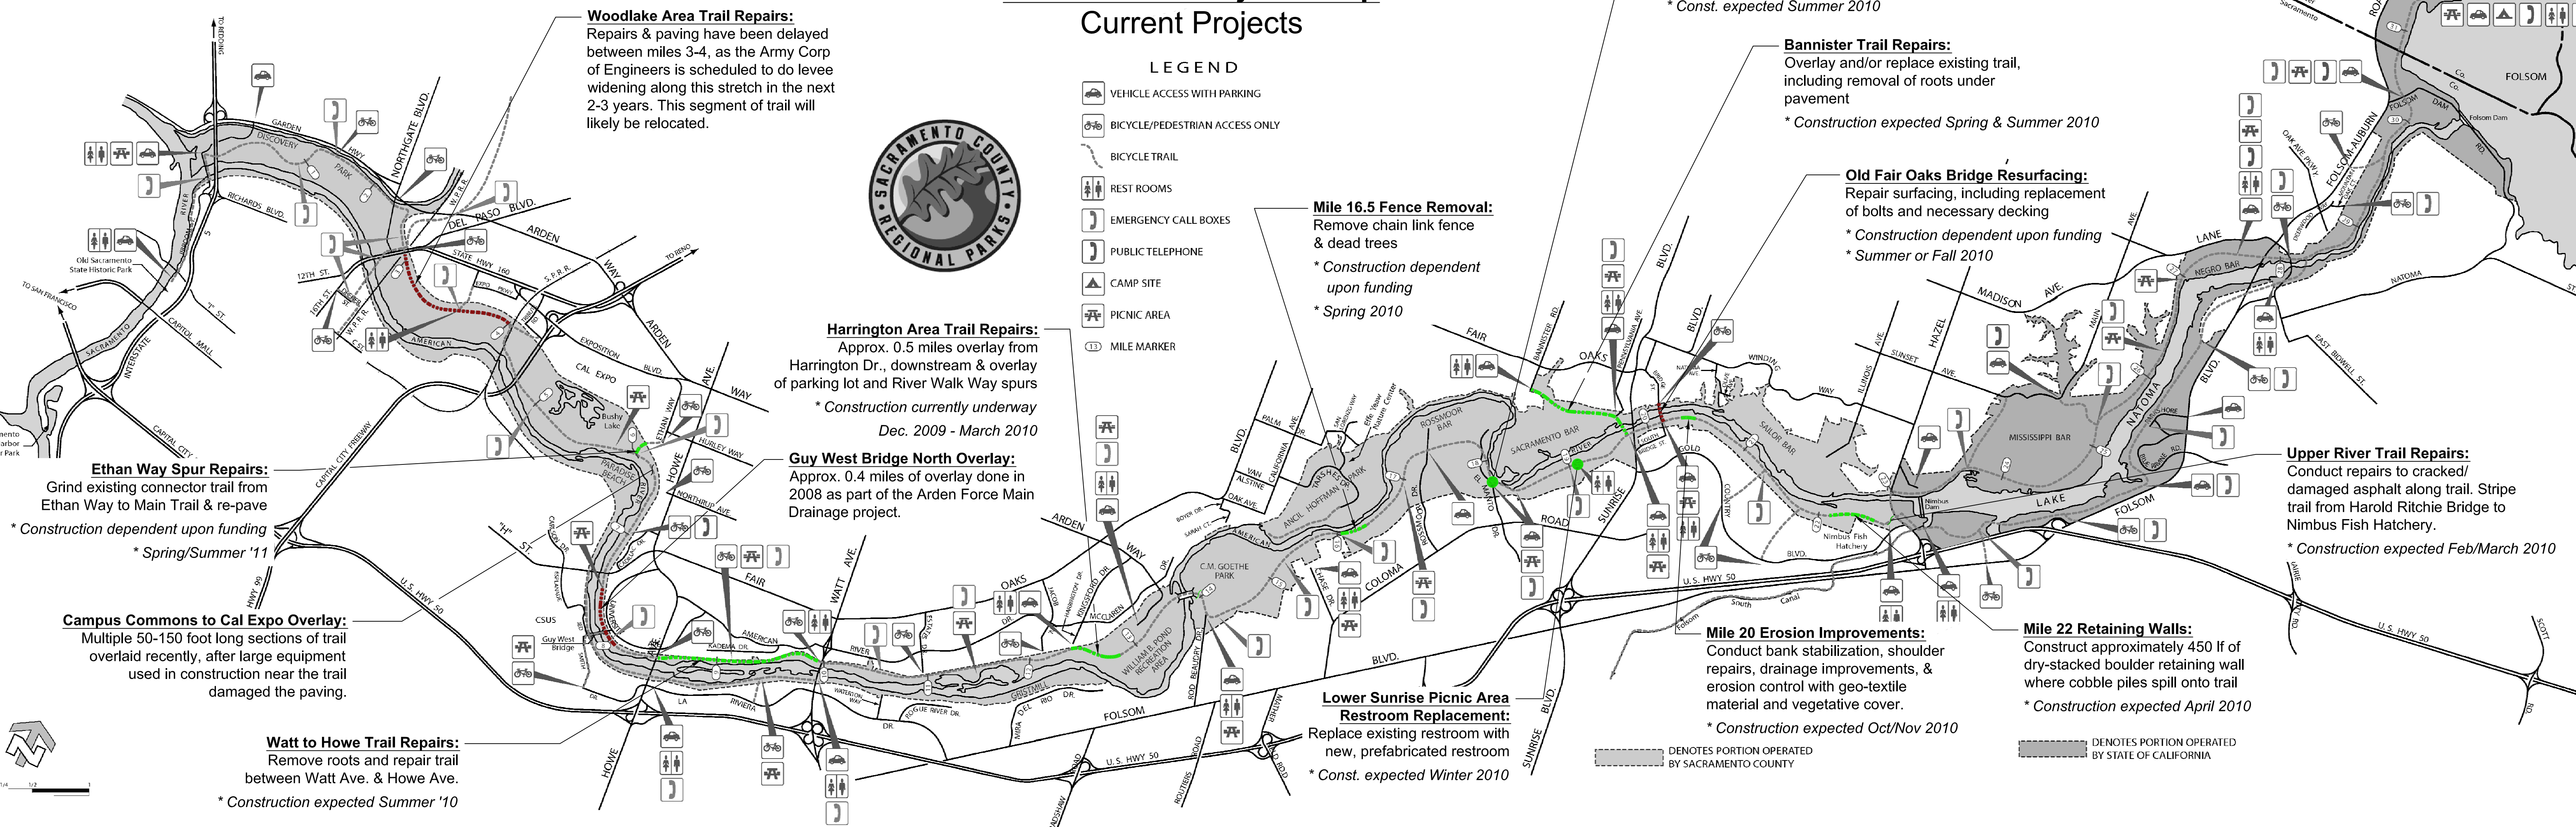

Old Fair Oaks Bridge Resurfacing:
Repair surfacing, including replacement of bolts and necessary decking
** Construction dependent upon funding
* Summer or Fall 2010*

Upper River Trail Repairs:
Conduct repairs to cracked/damaged asphalt along trail. Stripe trail from Harold Ritchie Bridge to Nimbus Fish Hatchery.
** Construction expected Feb/March 2010*

Mile 22 Retaining Walls:
Construct approximately 450 lf of dry-stacked boulder retaining wall where cobble piles spill onto trail
** Construction expected April 2010*

Mile 20 Erosion Improvements:
Conduct bank stabilization, shoulder repairs, drainage improvements, & erosion control with geo-textile material and vegetative cover.
** Construction expected Oct/Nov 2010*

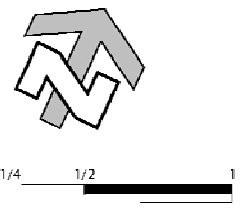

Lower Sunrise Picnic Area Restroom Replacement:
Replace existing restroom with new, prefabricated restroom
** Const. expected Winter 2010*

Ethan Way Spur Repairs:
Grind existing connector trail from Ethan Way to Main Trail & re-pave
** Construction dependent upon funding
* Spring/Summer '11*

Campus Commons to Cal Expo Overlay:
Multiple 50-150 foot long sections of trail overlaid recently, after large equipment used in construction near the trail damaged the paving.

Watt to Howe Trail Repairs:
Remove roots and repair trail between Watt Ave. & Howe Ave.
** Construction expected Summer '10*
