C. Special Event Permits

Special Events are events that are organized for the participation of the general public or for the exclusive use of a park facility for an approved activity. They are generally short in duration not lasting more than a few days and include, but are not limited to: casual music events, weddings, concerts, celebrations, or any other gathering of similar nature. The Parkway Plan recognizes two types of Special Events "Small Special Events" and "Large Special Events." Locations for special events are evaluated when considering an application for a special event permit based upon the ability of the proposed site to support the scope and scale of the event and the ability to manage the event in a way that minimizes impacts on the Parkway's natural setting, other Parkway users, and adjacent communities. Additional measures to be considered are described in the Parkway Plan. A permit is required for all special events as stated in Parks Ordinance 9.36.021 when it meets one of the following criteria:

- 1) The event is organized for the participation of the general public and attracts more than 41 participants.
- 2) A fee is charge for participating in the event.
